

ANDROID — ESIM INSTALLATION

How to install your eSIM on Android

A complete step-by-step guide covering all three ways to install your ADR eSIM on Android.

 Based on Samsung — steps may differ slightly on Pixel, Xiaomi, etc.

1

Automatic

Fastest — driven directly from the ADR eSIM app.

2

QR code

Scan the QR code from your order email.

3

Activation code

Enter the activation code by hand.

METHOD 1

Automatic installation

Fastest — drives setup directly from the ADR eSIM app.

Before you start. Connect to stable Wi-Fi (or a reliable mobile data connection), and don't close the app or lock your phone during installation.

1

Install

2 steps

2

Configure

4 steps

3

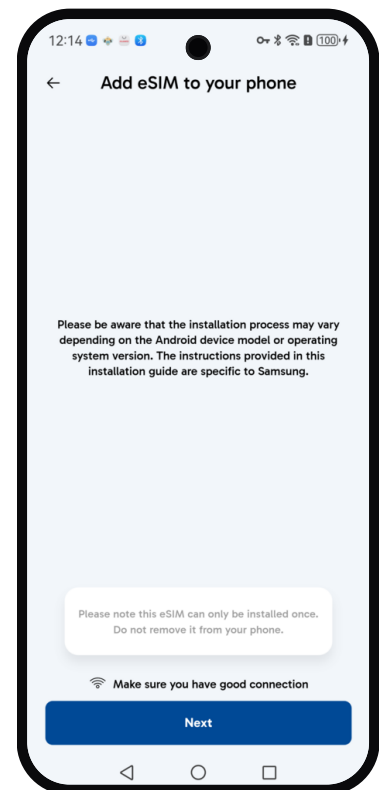

Finish setup

2 steps

METHOD 1 • INSTALL • STEP 1 OF 2

Start the installation

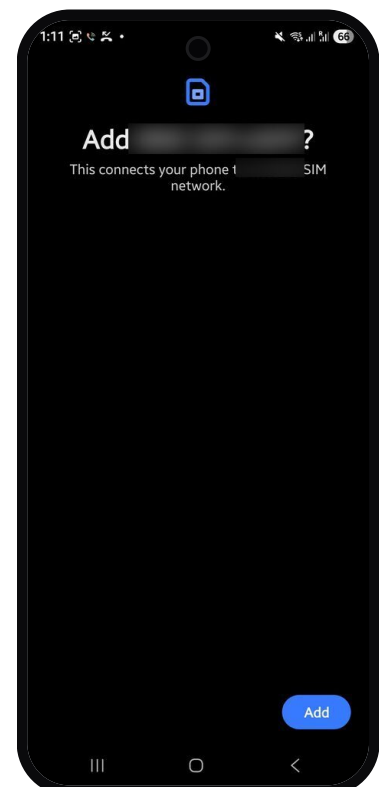

Open the **ADR eSIM app**, go to **My eSIMs**, and tap **Install now** on the eSIM you want to install. When the **Setup your eSIM** pop-up appears, tap **Setup**.

METHOD 1 • INSTALL • STEP 2 OF 2

Add the eSIM

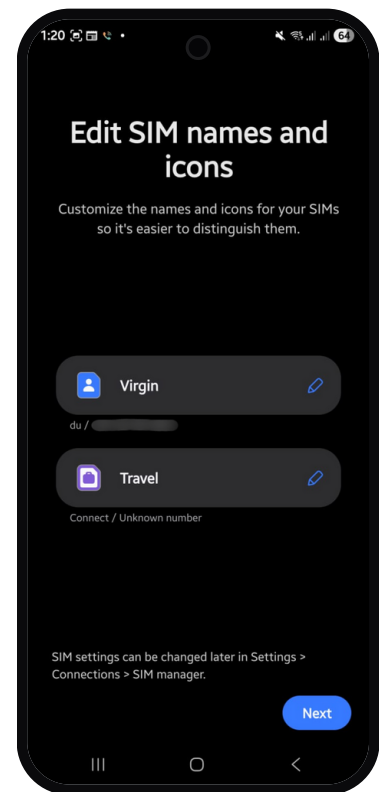

Your phone's Settings will open with the **Add BNE SIM eSIM?** prompt. Tap **Add** to confirm.

METHOD 1 • CONFIGURE • STEP 1 OF 4

Edit name

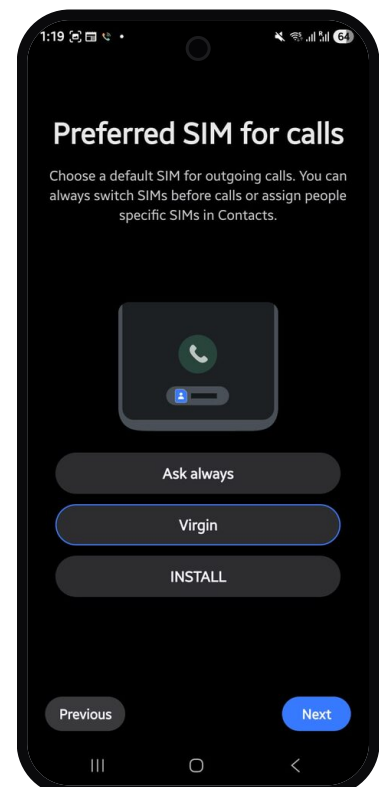

On the **Edit SIM names and icons** screen, we recommend renaming your eSIM to something easy to recognize (for example, “Travel”). Rename it and tap **Next**.

METHOD 1 • CONFIGURE • STEP 2 OF 4

Preferred SIM for calls

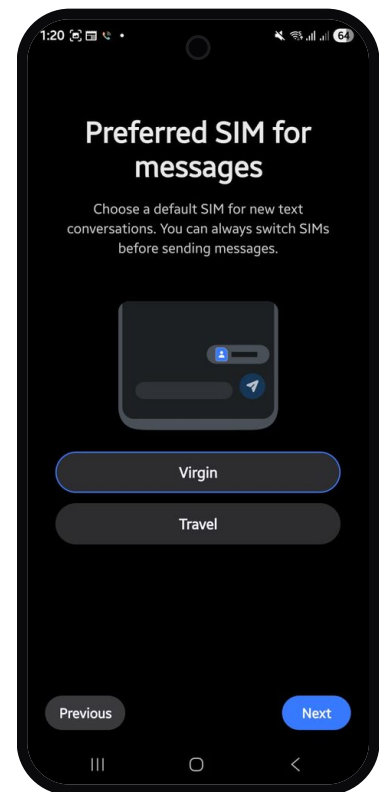

On **Preferred SIM for calls**, select your **current SIM** and tap **Next**.

METHOD 1 · CONFIGURE · STEP 3 OF 4

Preferred SIM for messages

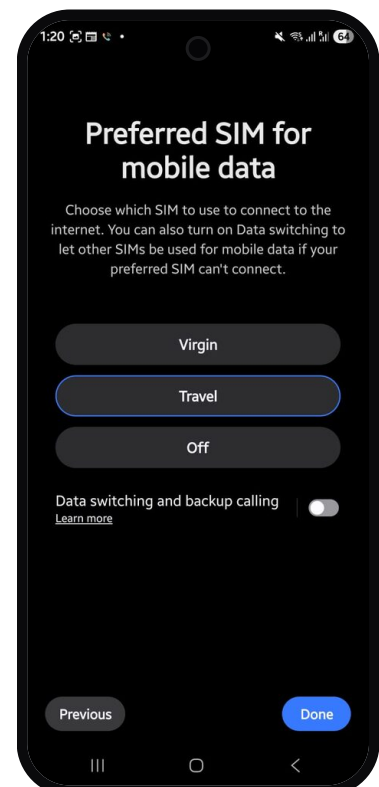

On **Preferred SIM for messages**, select your **current SIM** and tap **Next**.

METHOD 1 · CONFIGURE · STEP 4 OF 4

Preferred SIM for data

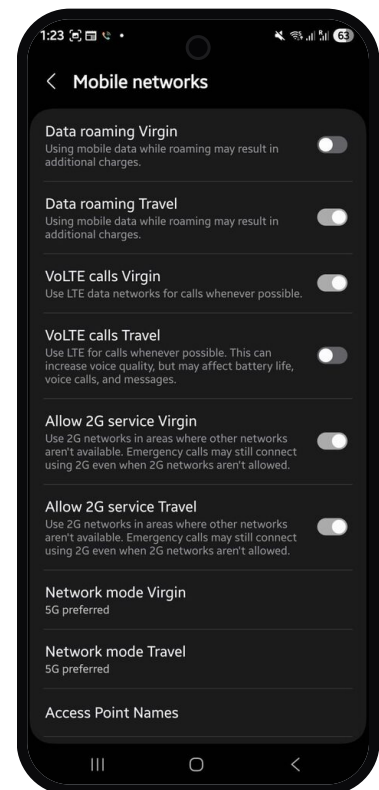

On **Preferred SIM for mobile data**, select the **travel eSIM** you just installed and tap **Done**.

METHOD 1 • FINISH SETUP • STEP 1 OF 2

Enable roaming

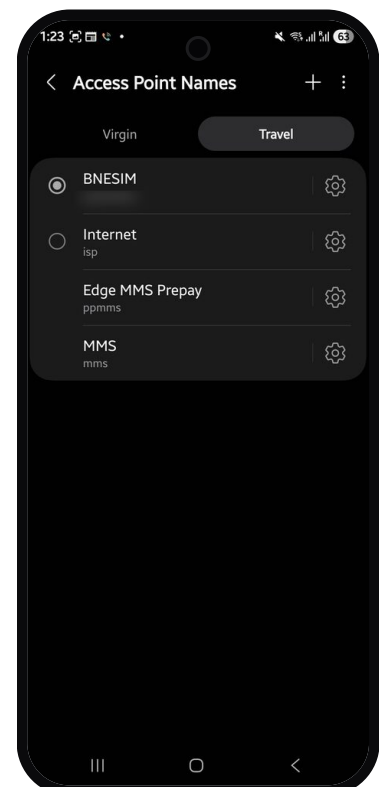

Go to **Settings** → **Connections** → **Mobile Networks** and turn on **roaming** for the travel eSIM you just installed.

METHOD 1 • FINISH SETUP • STEP 2 OF 2

Check the APN

Still in **Mobile Networks**, tap **Access Point Names** and select your eSIM's APN. If you're unsure which one, open the **ADR eSIM app** and check **eSIM details**.

METHOD 2

QR code installation

Use the QR code from your order confirmation email.

Before you start. Have your QR code ready (the one in your order confirmation email), connect to stable Wi-Fi, and don't close Settings or lock your phone during installation.

1

Install

2 steps

2

Configure

4 steps

3

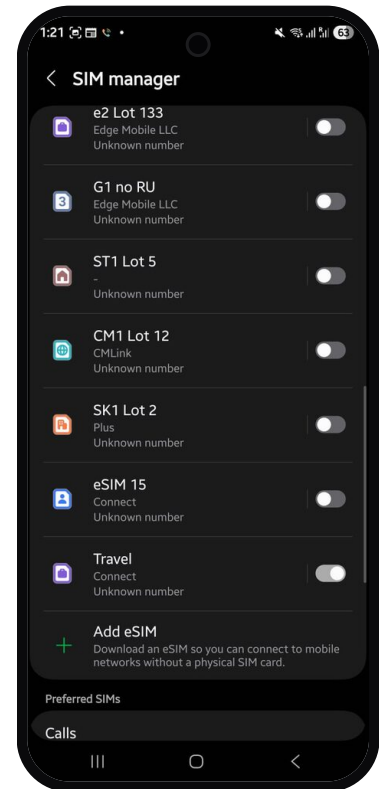

Finish setup

2 steps

METHOD 2 • INSTALL • STEP 1 OF 2

SIM Manager → Add eSIM

Open **Settings** → **Connections** → **SIM Manager**. In the **eSIM** section, tap **Add eSIM**, then tap **Scan QR code**.

METHOD 2 • INSTALL • STEP 2 OF 2

Scan your QR code

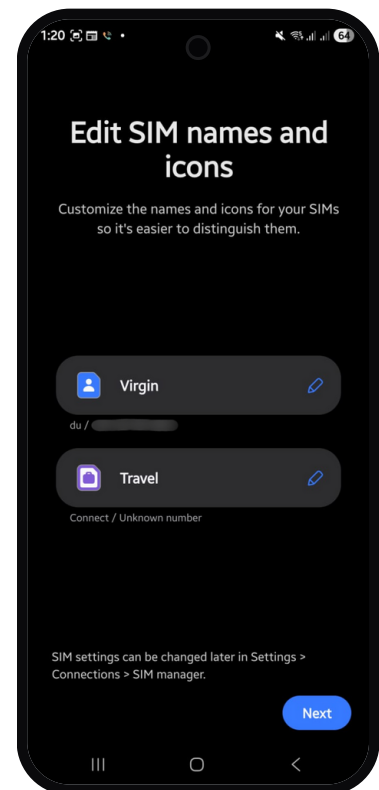

Scan the QR code from your confirmation email.

METHOD 2 • CONFIGURE • STEP 1 OF 4

Edit name

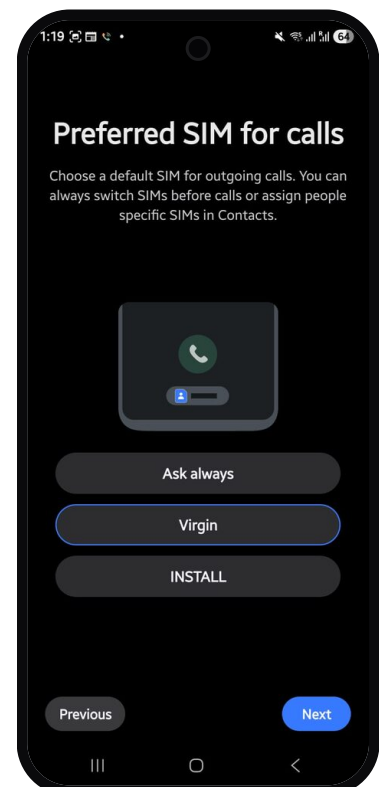

On the **Edit SIM names and icons** screen, we recommend renaming your eSIM to something easy to recognize (for example, “Travel”). Rename it and tap **Next**.

METHOD 2 • CONFIGURE • STEP 2 OF 4

Preferred SIM for calls

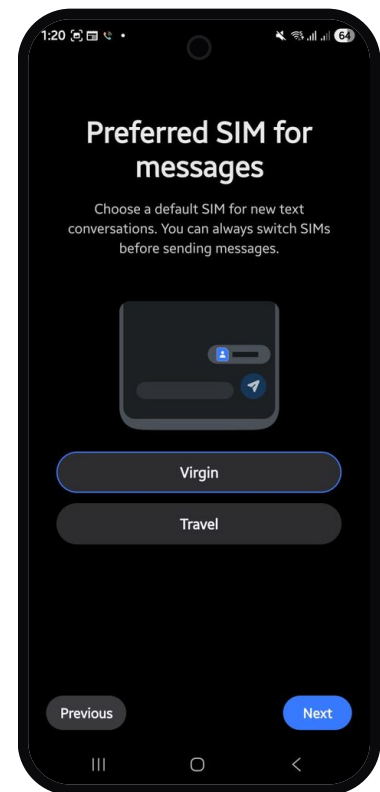

On **Preferred SIM for calls**, select your **current SIM** and tap **Next**.

METHOD 2 • CONFIGURE • STEP 3 OF 4

Preferred SIM for messages

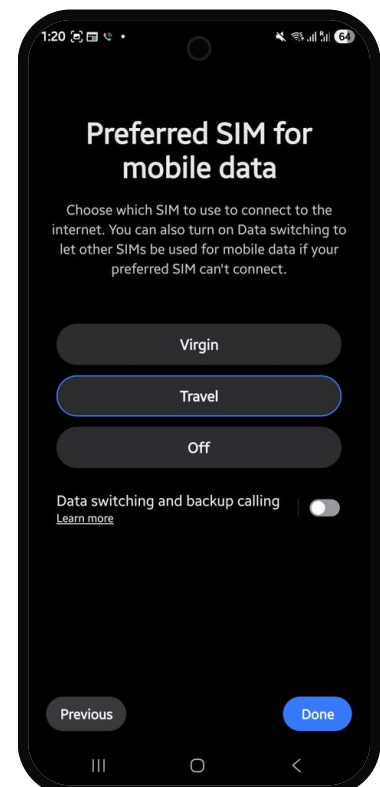

On **Preferred SIM for messages**, select your **current SIM** and tap **Next**.

METHOD 2 • CONFIGURE • STEP 4 OF 4

Preferred SIM for data

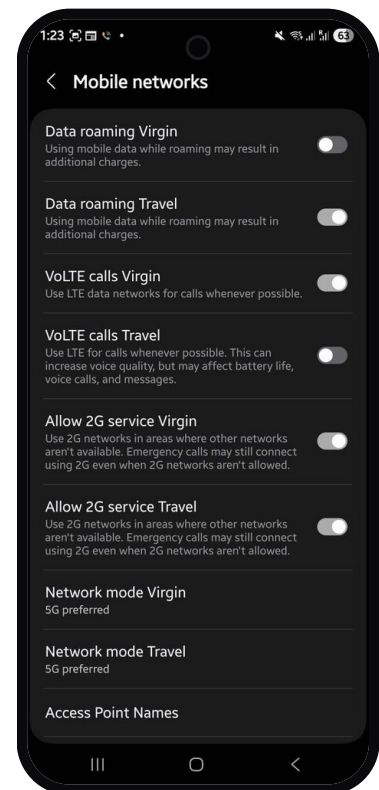

On **Preferred SIM for mobile data**, select the **travel eSIM** you just installed and tap **Done**.

METHOD 2 • FINISH SETUP • STEP 1 OF 2

Enable roaming

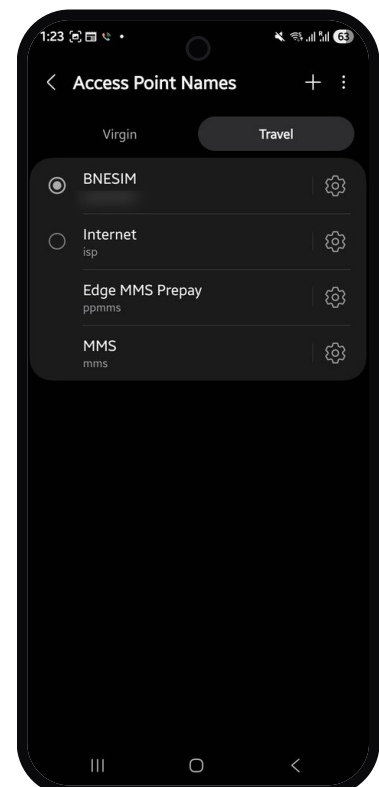

Go to **Settings** → **Connections** → **Mobile Networks** and turn on **roaming** for the travel eSIM you just installed.

METHOD 2 • FINISH SETUP • STEP 2 OF 2

Check the APN

Still in **Mobile Networks**, tap **Access Point Names** and select your eSIM's APN. If you're unsure which one, open the **ADR eSIM app** and check **eSIM details**.

METHOD 3

Activation code installation

Enter the eSIM details by hand when you can't scan a QR code.

Before you start. Connect to stable Wi-Fi, have the ADR eSIM app open (you'll need the activation code from there), and don't close Settings or lock your phone during installation.

1

Install

4 steps

2

Configure

4 steps

3

Finish setup

2 steps

METHOD 3 • INSTALL • STEP 1 OF 4

Open Manual input and copy the code

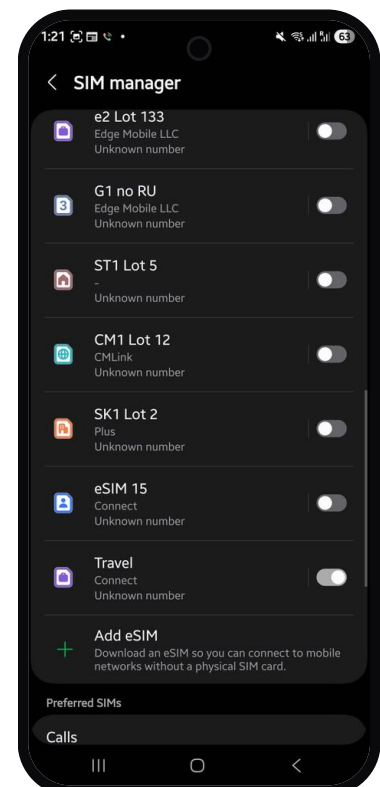

Open the **ADR eSIM app**, go to **My eSIMs**, select the eSIM you want to install, tap **eSIM details** → **Installation instructions** → **Manual input**, and copy the **activation code** shown.

METHOD 3 • INSTALL • STEP 2 OF 4

SIM Manager → Add eSIM

Open **Settings** → **Connections** → **SIM Manager**. In the **eSIM** section, tap **Add eSIM**, then tap **Scan QR code**.

METHOD 3 • INSTALL • STEP 3 OF 4

Tap Enter activation code

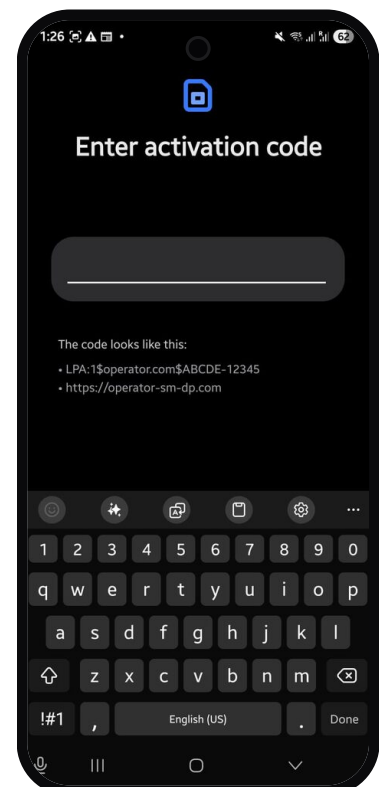

The QR scanner screen will open. Instead of scanning, tap **Enter activation code** at the bottom of the screen.

METHOD 3 • INSTALL • STEP 4 OF 4

Enter the activation code

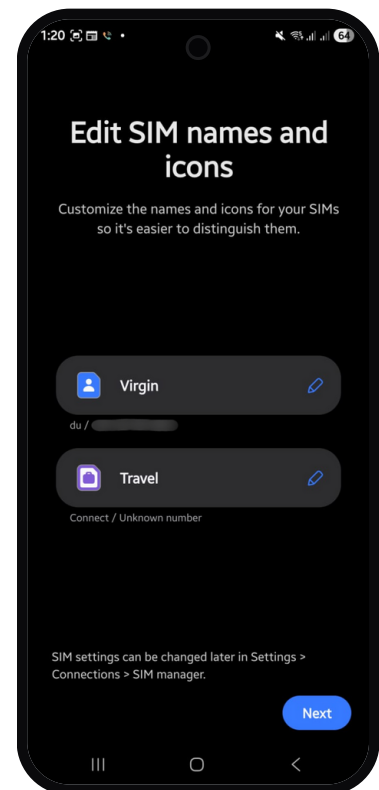

Paste the activation code you copied from the ADR eSIM app and confirm.

METHOD 3 • CONFIGURE • STEP 1 OF 4

Edit name

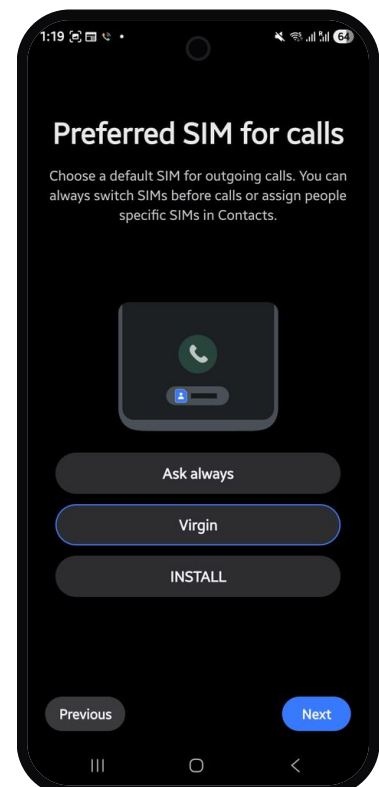

On the **Edit SIM names and icons** screen, we recommend renaming your eSIM to something easy to recognize (for example, “Travel”). Rename it and tap **Next**.

METHOD 3 • CONFIGURE • STEP 2 OF 4

Preferred SIM for calls

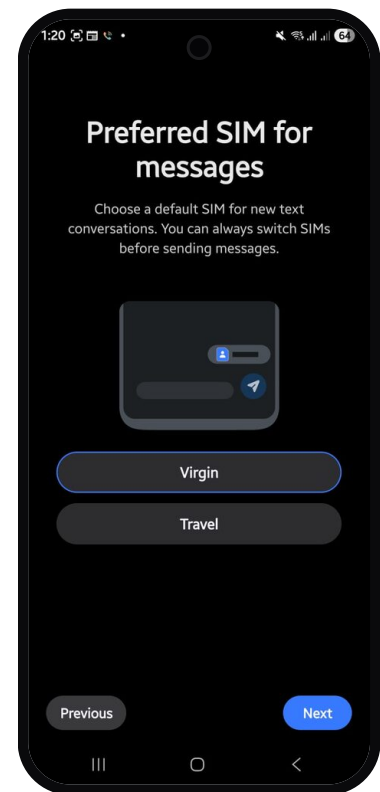

On **Preferred SIM for calls**, select your **current SIM** and tap **Next**.

METHOD 3 • CONFIGURE • STEP 3 OF 4

Preferred SIM for messages

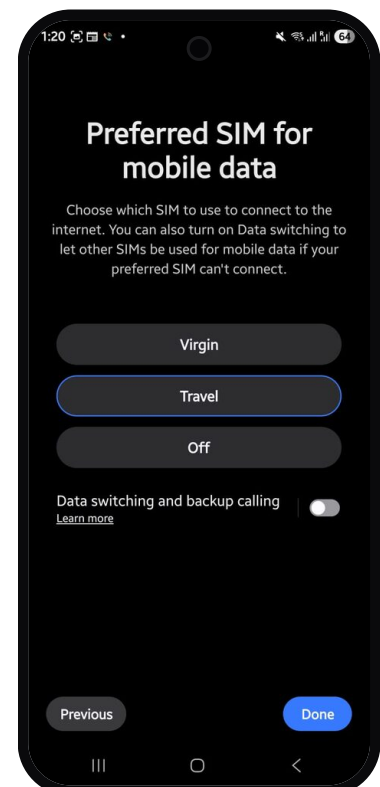

On **Preferred SIM for messages**, select your **current SIM** and tap **Next**.

METHOD 3 • CONFIGURE • STEP 4 OF 4

Preferred SIM for data

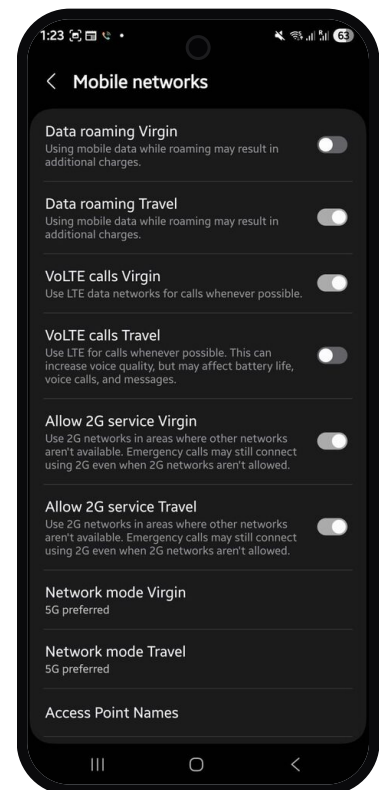

On **Preferred SIM for mobile data**, select the **travel eSIM** you just installed and tap **Done**.

METHOD 3 • FINISH SETUP • STEP 1 OF 2

Enable roaming

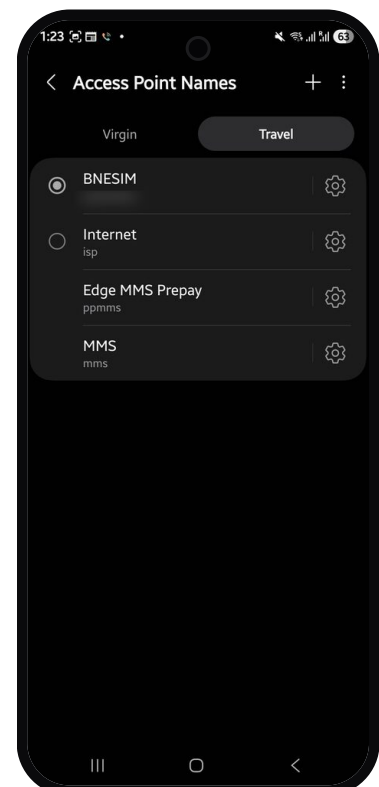

Go to **Settings** → **Connections** → **Mobile Networks** and turn on **roaming** for the travel eSIM you just installed.

METHOD 3 • FINISH SETUP • STEP 2 OF 2

Check the APN

Still in **Mobile Networks**, tap **Access Point Names** and select your eSIM's APN. If you're unsure which one, open the **ADR eSIM app** and check **eSIM details**.

**You're all
set!**

Your eSIM is installed and ready to go. Have a great trip — and if anything goes sideways, our support team is online 24/7.
